PROFESSIONAL SUMMARY

Aspiring React JS and JavaScript developer with a strong foundation in front-end development. Eager to contribute to developing robust front-end solutions, creating responsive user interfaces, and implementing scalable REST APIs as part of the Infosys team. Committed to high customer satisfaction and continuous learning.

PROJECT(S)

My Portfolio   React JS | JavaScript | HTML | CSS

- Developed a responsive portfolio website using React.js, HTML, CSS, and JavaScript.
- Designed an engaging user interface to showcase projects, skills, and contact information.
- Implemented smooth animations and transitions for an enhanced user experience.
- Link:// Portfolio

Todos Application   JavaScript | HTML | CSS | Bootstrap

- Developed persistent todo application with CRUD operations to track list of tasks
- Displayed list of todos with HTML list elements,styled todo list using CSS, Bootstrap
- Implemented todo crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during todolist CRUD Operations, Persisted todo list state on page reloads using local storage methods.
- Link:// todos Application

WikipediaSearch Application HTML | CSS | JS | REST API Calls | Bootstrap

- Developed a custom Wikipedia search application where users can search view curated results and see detailed explanations in Wikipedia by clicking on the specific result
- Displayed a list of search results with HTML list elements with hyperlinks as URL, styled list using CSS, Bootstrap, and implemented responsiveness using Flex properties and CSS Box model.
- Fetched search results from a server asynchronously using fetch GET HTTP API call. When a user clicks on a particular result, opens the website in a new tab by using the target attribute of the anchor tag in HTML.
